CYBER CLAIMS STUDY  
2021 REPORT**

OUR SPONSORS

RSM | Experian | GUIDEWIRE | Beckage

Beckage is a proud sponsor of the NetDiligence® *2021 Cyber Claims Study*, which provides an analysis of actual losses for data breaches and other cyber-related events covered by leading cyber insurance carriers. This year's study features analysis of almost 6,000 claims arising from events that occurred during 2016–2020. The data from these claims has been aggregated in over 20 ways, including crisis, legal, business interruption, recovery, and total incident costs; the nature of the event, type of data exposed, business sectors affected, revenue size of claimants, and causes of loss, especially the growing impact of ransomware.
